

# StandUp

SystemRoMedic™

*The perfect  
solution for  
safe and quick  
lifts from the  
floor*

**StandUp** is a lift-chair and a brand new kind of assistive device in the SystemRoMedic range. Using StandUp, a single caregiver can quickly, safely and easily assist a person lying on the floor, unable to get up on their own. In a secure and comfortable way, StandUp lifts the user up into a seated position, ready for rising or transferring to a wheelchair. StandUp is both compact and light-weight. It weighs only 11,5 kg/25 lbs, which is less than half compared to a portable mobile lift. At the same time, it is strong and sturdy enough to manage lifting users weighing up to 160 kg/352 lbs.

Carrying strap for easy transport.

# StandUp

- the perfect solution for safe and quick lifts from the floor

StandUp is very convenient to always have close at hands. It fits into all cars and is easy to carry with the attached carrying strap over the shoulder. StandUp is suitable for use in all environments and settings, even in small spaces where a mobile lift is hard to fit. StandUp operates silently, no assembly is required, there are no batteries that need charging and the user instructions are always available right on the product.

StandUp is an assistive device that actually gets used, thereby providing both safe working conditions for health care staff and good care for the users. It has been specially developed for use in homecare, nursing homes and special institutions but it is equally useful also in hospitals.

Easy to use, instructions on the seat.

Compact and light-weight.

StandUp unfolds effortlessly in three simple steps and is immediately ready for use.

Fold out the legs and fold down the seat.

Quick, secure and comfortable lifts from the floor to a seated position.

SystemRoMedic™ is a complete solution for easy transfers. The concept encompasses four product areas that meet most needs in different transfer situations.  
**Transfer**, between two locations. **Positioning**, within the same location.  
**Support**, for mobility. **Lifting**, both manual and mechanical.
